

Below is the first partial report put out by TPAN at the launch of our website shortly after incorporating in August 2017.

Full report coming in the months ahead.

## 2017 At A Glance - The Beginning.

Texas Progressive Action Network kicked off in January of 2017 and formally incorporated in August of last year.

Here, we'd like to more closely examine what we've been working towards.

A full annual report will be posted in October 2018.

## We Began To Bill Track During The 2017 Texas Legislative Session.

Bill tracking allows us to be informed of what legislation is moving through the legislature. In the 2017 legislative session, bill tracking allowed us to advocate for bills we supported and to take action on bills we were firmly against.

Bill tracking was a small operation this past session but we are already looking towards the next session in 2019. We are planning to build out a team that can expand this effort so that we cover more legislative ground on a range of issues.

59 STATE BILLS WE FOLLOWED

81 STATE RELATED CALLS TO ACTION

## Following National Issues.

From fighting for the preservation and improvement of ACA, to national policy concerning a border wall (of which Texas would see significant impact), as well as wildlife and environmental regulations, we have tracked a number of issues on the national level so far and will continue to do so.

123 CALLS TO ACTION ON NATIONAL ISSUES

# Promoting Voter Rights Education.

We hope to connect with Texas voters in 2018 and beyond through voter rights education, civic engagement and community building.

We will be starting in a few areas of Texas in 2018. We are currently planning workshops for the following cities:

Austin

Seguin

San Antonio

Houston

El Paso

Harlingen

Brownsville
